

50 YEARS MATHEMATICAL BULLETIN

The Union of Mathematicians and Informaticians of Republic Macedonia in this 2000th year celebrates two very important events: 50th anniversary of the Union and of the scientific journal Mathematical Bulletin. The first issue of the Bulletin was published in 1950 by the Society of Mathematicians and Physicists of Macedonia. The numbers of the first editorial board of the Bulletin were: Prof. Marin Katalinić, Prof. Dragoslav Mitrinović, Ordan Pechijare, Blagoj Popov and Jože Ulčar.

Since the first year, the Bulletin had enormous progress. Together with this, jubilee 50th issue, 426 original scientific papers were published in the Bulletin. Today, scientific papers in mathematics, informatics and their application are published in the Bulletin. The papers published in the Bulletin are professionally refereed and reviewed in: Mathematical Reviews, Centarblatt für Mathematik and Реферативный журнал. The languages used in the Bulletin are the four world languages: French, English, Russian, German and the Macedonian language.

The journal Mathematical Bulletin is distributed to over 230 scientific and higher education institutions around the world, as a result of a very generous exchange for a large number of scientific journals that enrich the library of the Mathematical Institute at the Faculty of Natural Sciences and Mathematics in Skopje.

On this occasion we would like to mention all those to which this journal is dedicated and without whom this journal would not exist. Those are the mathematicians and other scientists of Macedonia and the world which "nourish" the Bulletin with the fruits of their scientific work. There is a great interest of a large number of scientists from foreign countries to publish their papers in the Bulletin. We mention some of those countries: Austria, Australia, Belorussia, Romania, Yugoslavia, Hungary, Croatia, etc.

In this, jubilee 50th issue of the Bulletin, it is nice to mention the names of those mathematicians that have given enormous contribution to the development and the publishing of the Bulletin by their volunteer work in the editorial board. Those are: Dragoslav Mitrinović, Blagoj Popov, Jože Ulčar, Platon Dimić, Gjorgji Čupona, Ilija Šapkarev, Branko Trpenovski, Danica Perčinkova, Dragan Dimitrovski, Smile Markovski, Slobodanka Georgievska, Smilka Zdravkovska, Ognjan Jotov, Aleksandar Samardžiski, Dimitra Karčicka, Boro Pipereski, Radojko Sekuloski, Kiril Stojmenovski, Dončo Dimovski, Borko Ilievski, Magdalena Georgieva i Nikola Pandeski.

Let our Journal live forever.
